Forecast for Tuesday 17 May 2022

Weather: Sunny spells first thing, with some patchy low cloud at first. The morning will be dry with warm sunny spells, turning cloudier in the afternoon with a risk of showers at first then a spell of persistent and heavy rain during later afternoon and early evening. Clearing up again overnight.

Chance of cloud-free hill tops above 600m: 80% becoming 100% after dawn, deteriorating to 20% from mid-afternoon

Low cloud and visibility: Cloud bases generally above the summits at first but some patchy cloud around 800m will cover some hill tops for the first couple of hours of the day. Very good visibility for much of the morning but deteriorating to poor in heavy rain and with cloud bases lowering to around 500m in the afternoon and evening.

Meteorologist's View

It will feel very warm around lunchtime but ensure you prepare for the deterioration in the weather during the second part of the afternoon as it will turn much cooler and wetter quite quickly.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Mon 16 May 2022	7mm	12.4mm	12.4mm

Forecast for Wednesday 18 May 2022

Weather: A dry and fairly clear start to the day, feeling warm in the sunshine but likely deteriorating in the afternoon with a risk of heavy and thundery rain into the evening.

Maximum wind: Southerly mean 20mph gusts 35mph.

Chance of cloud-free hill tops above 600m: 100% in the morning becoming 60% in the afternoon.

Low cloud and visibility: Cloud bases above the summits first thing and through the morning, making for good visibilities. Possibly deteriorating through the afternoon and evening with a risk of heavy showers and rain bringing poor visibilities and cloud bases covering the highest peaks.

Temperature: **Valleys:** Plus 9 degrees Celsius becoming Plus 17 degrees Celsius
At 600m: Plus 6 degrees Celsius becoming Plus 13 degrees Celsius.
Freezing level: Above the summits
